

1 NOVEMBER, 1982

Left is Arselli, EA2JG, and right is Abgel, EA1QF, waiting for Arselli to give up the mike during September's C3OMF operation. 2500 QSOs were made in three days.

VKO HEARD ISLAND

The WIA-NCDXF-IDXF Heard Island is coming along rather well. They are making a concentrated effort to get together more funds before the fact, as if they are not raised, the DXpedition will not go. The DX Foundations and WIA have already set aside \$30,000 of a needed \$150,000.

The agreement between the Mountaineers and Amateurs has been signed, and the motor sail vessel "ANACONDA II" has been chartered for the trip. The official landpermits have been issued (copies have been received here), and VKO calls have been issued, with VKOHI being the DXpedition call.

The group will leave Perth around the New Year, and will take three weeks to reach Heard via Amsterdam and Kerguelen, where they will also operate. They will then spend six weeks on Heard.

Clubs and Organizations should contribute via The Wireless Institute of Australia, Heard Island Trust Account. Individuals may contribute via the IDXF of Northern California DX Foundation. All donations are protected in case of failure.

FB8W CROZET ISLAND

George, FB8WG, will be leaving the island in November. Two hams are reported to be in the replacement crew. They will be F6ICA and F6IAN, most likely with the calls FB8WH and FB8WI.

FB8Z AMSTERDAM/ST PAUL

F6DWQ will be in the replacement crew for this one, with the possibility of F6AJW going too. F6DWQ's call will be FB8ZP, and activity should start in mid-November.

FB8X KERGUELEN

F6BVX will also be arriving in mid-November for operation as FB8XR.

3D2 FIJI ISLANDS

DK6XR and DK7XN are planning to operate from the Fijis starting from 27 October for about 10 days. The thing here is that they will be operating from Rotuma Island, which is 630km north of Fiji. They have asked the DXAC for separate country status under Rule 2A. However, it appears that the distance is not great enough under 2A. Since the usual procedure is to rule after an operation has taken place, then they have decided to go there. So, WFWL, it has at least some possibilities.

Operation will be with two stations, usual frequencies, on all 5 bands. The call sign will be known after they arrive at Suva. QSL via the home calls.

FW WALLIS ISLAND

DK6XR and DK7XN will operate from Wallis for 7 days after their 3D2 operation is completed.

F6BBJ AFRICAN DXPEDITION

Jackie, F6BBJ, plans to leave on 15 November for his first African stop. No word on which country he'll hit first.

5H3 TANZANIA

Leif, SMOAJU, and John, SMODJZ, members of the Bullmertz, will be going to Tanzania for two weeks operation from the shack of Bjoern, 5H3BH, in Dar Es Saalam between 24 November and 6 December, including multi-single operation in the CQ WW CW contest. They will operate mostly SSB before the contest, and mixed mode afterwards. During the contest look 50 kc up on 10-15-20, and 25kc up on 40m and 80m. They plan to pay a lot of attention to the low bands during the contest. QSL for this expedition only to SMODJZ, Jan Hallenberg, Idungatan 3, S-19500 Mersta, Sweden.

60/T5 SOMALIA

OH2JL/T5, Jukka, a Red Cross official, will be in Somalia for about four more weeks, but was expected to be QRT from 22-29 October. He is said to have tacit approval of the authorities, no knowledge of what documentation he may be able to provide. QSL his home call.

5R8 MALAGASY

Alain, 5RBAL, has been coming up at 1800Z on Wednesdays for a schedule with manager WA4VDE. Alain is going to be out of the country for about a two month period beginning on 20 October.

TZ MALI

Jean, F6FIC/TZ, still showing on Tuesdays at 2300 to 2330Z for a list with PY2PE. Look on 14.225mc.

ZD9 TRISTAN DA CUNHA

Mike, ZD9BX, will be on the air for one more year before returning to England.

Andy, ZD9BV, is moving his shack, and will be back on the air on 1 November. He's currently the only ZD9 who will operate CW.

VP8 FALKLAND ISLANDS

John, VP8APQ, is fairly new to the Falklands, and active on cw. QSL via G4LPQ.

VK0 MACQUAIRIE

Alan, VK0AN, has lost most of his antennas in a high wind, and expects to operate only 10 and 15 until his departure.

9L SIERRA LEONE

Arild, LA2EX operated as 9L1EX until May 1982. All cards received in Sierra Leone, except USA, have already been answered. At present, he is waiting for a new batch from the printers before completing them. He knows that there was a mail thief working while he was there, and thinks that some of his mail was stolen. If you don't receive a card within a reasonable time, send a new card to:

Arild Fotland, LA2EX
Barliveien 34
N-5033 FYLLINGSDALEN
NORWAY

CT2 AZORES

KB5GL reports that he is no longer QSL manager for CT2CB, as he has received no logs for two years.

DXCC

The Previously mention deletions of HK0 Baja Nuevo, HK0 Serrana Bank, and 8Z4 Neutral Zone will officially become effective on 1 December.

QSL HELP

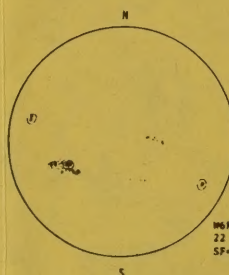

Bill, K2TQC, could use help in locating a QSL route for VS9AWR, operator G3SUQ, from October 1965.

PROPAGATION

With the fall season back with us in full force, we can look forward to another good season of DXing, with good results on all bands. Those who have predicted the demise of 10 meters just haven't turned the bandswitch, as 10 is just as good as ever, with daytime VUs noticed again this season. Dr. Ted looks for mixed results, and the N4XX forecast is:

1 Nov High Norm	8 Nov High
2 Nov Low Norm	9 Nov Low Norm
3 Nov Below Norm	10 Nov Low to
Below Norm	
4 Nov Low Norm	11 Nov High
5 Nov High to Low Norm	12 Nov Low Norm
6 Nov High Norm	13 Nov Low Norm
7 Nov High Norm	14 Nov Low Norm

A1, W6RQ, finds more spot groups.

Here's a picture of a "band-opener" with ionospheric activity growing as the larger spot groups move toward the center of the Sun.

The large group there in the southwest is one of the more spread-out groups of the past month. Back in June and July, a group with this number of spots was a certain large flare-producer. But this fellow is much cleaner-looking. We'll bet that he will aid in an increasing Solar Flux while staying benign as a band disturber.

Lee, KH6BZF, continues to file the Sunwatcher's Scorecard:

SOLAR EST		ALPHA K index		NOTES:	
FLUX	SSN				
19 Oct	138	96	14/14/--	3	
20 Oct	149	109	18/--/--	3	
21 Oct	163	129	08/07/--	3	
22 Oct	170	137	08/07/--	2	
23 Oct	182	152	08/08/--	2	
24 Oct	193	166	08/--/--	2	

Best VHF days are expected on the 18-19th, 23-24th, 29-31st of October, and 3-5 Nov, 9-11, 13, 17-18, 19-21, 25, 30, Nov, and 8 December.

The solar storm expected around the CQ WW may have occurred as early as the 24-26th, if so conditions for the contest will have been fantastic. The flux peak should occur on the 30th.

This week's Thought From Rainbow Bay: "Motion and progress ain't necessarily synonymous."

FEATURE

COMMENT

The week before the CQ WW SSB contest always has a little bit of magic about it. It's known locally as "Antenna Test Week", because that's the week that everyone is on testing their new antennas before the contest. It's especially true on 80 meters, where the boys who venture down into the Caribbean are testing 80 meter too. This creates some interesting pile-ups.

We have this particular week to be particularly busy, as the station hasn't been completely set up yet, and G3UKS, and G4CEB, who came over to see the sights as well as operate the contest, have been working away to get things in shape. We're always willing to learn something new, and these guys definately know what they're doing, so things should be ready for testing by Friday.

At any rate, we're looking forward to the contest, hope you have fun as well.

73

K5FUV

SLIM REPORT

FPODD, giving W3BL as QSL manager, is a definate Slim, as W3BL isn't a manager for any body, and doesn't plan to be.

EA2AK/ZA2 was on cw again recently, but that was Slim too, as is any TT or other African giving F9KP as QSL manager.

By the way, as expected, mail to KJ6DO/KH7S was returned: "Attempted-not known".

CLUB NEWS

The annual Arkansas DX Association Banquet will be held at the Ramada Inn in Fort Smith, Arkansas on December 4, 1982. There will be a hospitality suite on Friday night, and on Saturday evening after the business meeting. Contact club secretary Harold Wilson, KB5RF, for details.

The Twin City DX Association (Minneapolis-St Paul area) announces the following officers for 1983:

President: Bill Higgins WOYDB
Sec- Treas: Bilh Dean WOWDW
Director: Clyde Norton WOELA
